

Il Panificio Carta

Our company, “Panificio Fratelli Carta”, has been operating in Sedilo, in the heart of Sardinia, since 1985. Thanks to a long family tradition, our bakery has always guaranteed the respect and loyalty of the Sardinian traditional productive processes of bread.

Our products combine the millennial Sardinian tradition in the art of baking, the guardian of an ancient flavor passed from generation to generation, with the innovation of our plants built in 2006 to ensure high quality production.

The efficiency of our company, expressed in the first place by the excellence of our service, was recognized by major national and international distribution chains, thanks to which our products are sold in major European.

The large production capacity and the punctuality of deliveries guaranteed by the size of our warehouse - over 2200 m2 (one thousand for production processes) - allows us to give an immediate response to the needs of our trading partners in full compliance with quality standards and professionalism that characterized us.
